RUMORS STIR SHERIFF VIOLENT DEATHS HINTED THEN RELIEF ARRIVES

Dame Rumor had her fling at Ogden this morning and for several hours lashed an average that made false truth look like a newcomer in a bush league.

The rumor, or rumors, for there were plenty of them, came as an aftermath of a telephone call which reached the sheriff's office at midnight last night. The voice said something terrible had happened in Beaver canyon and officers should come at once. There was no further information.

Bert Crimes of the sheriff's department jumped into an automobile and streaked up the canyon to the scene of action.

At 10 o'clock this morning he had not returned and rumors began filtering around Ogden. One rumor had it that an automobile had turned over and killed several people. Another

said that a man had been killed while dynamiting fish. Still another bore the news that the game warden had shot a man. The least probable was that a man had been electrocuted while trying to play the same trick on the power fish.

The entire city was relieved, however, when a telephone call brought the news that an automobilist had driven up a road leading from the main highway and continued on his bumpy ride until the canyon trail had become too narrow for his car and two wheels went into a ditch where it stuck. The car is still vacationing in the canyon.

But the city had a good time while the rumor lasted.

FOREIGN AFFAIRS IN STATE VOTING

Oriental Exclusion and League for Nations Will Figure in Election of Senators

NEW YORK, July 19.—Foreign affairs, including the league of nations and proposed new Oriental exclusion treaties, will be vital issues in 14 of 15 states where contests are expected to develop in the election of United States senators, Senator Miles A. Poindestexter announced here today at the Republican national committee headquarters where he is chairman of the senatorial sub-committee.

"The senate is particularly important in this campaign," Senator Poindestexter said, "because the number of leading issues are matters in the special jurisdiction of the senate. That is particularly true in the great question of our foreign relations—the league of nations and the efforts of the Democratic party to establish an international government as the final coup and consummation of the policy of internationalism to which the Democratic party has devoted itself and which is now endorsed both in Democratic platform and by the agreement by Governor Cox with the policies of President Wilson."

"The senate saved the independence of the United States and it looks as though it would secure a Republican senate in the next congress to finally consummate this victory."

"On the Pacific coast there is vital question of the states' right of migration. It is a struggle for possession of the land and for the supremacy of the white race on the Pacific. It can only be dealt with by the treaty which the senate is final judge. The Republican senate stands for control of this question by the American government. The Democratic government sought to submit it to a foreign tribunal, the council of the league of nations."

Senator Poindestexter said that seven or eight of the states in which there would be contests for senator are on the Pacific slope and vitally interested in the anti-alien problem.

HEAD OF FAMILY SHOT BY WOMAN

Preferred Wife to Herself, Girl Tells Public in Suicide Note

CHICAGO, July 18.—Miss Pauline Mogilitch, 30 years old, a bookkeeper, shot Julius Jonas, 48 years old, a traveling salesman, and then killed herself in her home on the north side today, according to the police.

Jonas, who has a wife and four children, was taken to a hospital where it was reported his condition was critical. He had been separated from his wife about five years and had boarded with the Mogilitch family several months. Last March Mrs. Jonas, who is a sister of Lee Feist, New York music publisher, filed suit for separate maintenance, naming Pauline Mogilitch, but a reconciliation was said to have been effected.

On Saturday night Jonas was said to have received a telephone call from Miss Mogilitch asking him to see her.

At the hospital Jonas said he spent the night in the guest room of the Mogilitch home, and Miss Mogilitch entered and fired without warning.

In a letter addressed "to the public" the woman said: "I tried to get Julius to kiss me to night, but he refused. He said he loved his wife and family more than he did me and that he was going back to his wife and family and he seemed to mean what he said."

OUJIA NEVER FIRMS: ROSA IS OUT \$850

(By International News Service.)
PITTSBURGH, Pa.—You are about to suffer a great loss," spelled out the ouija board under the operation of Rosa Christy.

Rosa believed it. Oujia had never told her wrong. When two gypsies knocked at her door Rosa saw an opportunity of learning more about the ouija warning. After a quiet consultation the gypsies learned of the ouija message and also that Rosa had \$850 in bank. She was told that some person had put a curse upon her and that if she would take the money from the bank they would remove the curse.

When she went out for the money the gypsies secured a bed tick and two pillow cases. Rosa was told to put the money in one of the pillow cases and to sleep on it that night. She did, but on arising the next morning the money was gone. The gypsies swindled the pillow cases.

Oujia was right.

PRICES JUMPING ON STATIONERY

School Children Will Pay More for Paper and Note Books This Fall

School children this fall will be compelled to pay more for paper and note books than ever before in history, according to announcements made today by local stationery stores. The storekeepers declared that with the arrival of each price list the cost goes up, up, up, and even with the great ascent of stationery stores and they have their difficulties getting enough for the demand.

The continued rise in price is attributed to the paper shortage which has resulted in the decrease in size of newspapers and magazines throughout the country in recent weeks.

Children's loose leaf covers which formerly sold for 35 cents, are now selling for \$1.10 and indications at present are that the price will be higher with the opening of school, the retail men say. Loose leaf paper which sold for 15 cents is now 15 cents and on the rise.

Children's rough ruled paper has taken a rise and is still going higher, the merchants said. Envelopes have also increased ten per cent in price within the past few days.

Prices of stationery by a large paper company, according to a list received in Ogden today, show an increase in prices of bond papers, stenographers note books, typewriter paper, all card board and Bristol board, post cards, tags, cut cards for meat tickets and milk tickets, linen paper and adding machine paper.

OLE HANSON TO TESTIFY IN COMMUNIST TRIALS

CHICAGO, July 19.—Judge Oscar Hebel, sitting in the trial of twenty Communist-Laborites, charged with conspiracy to overthrow the government by force, today ruled that testimony by Ole Hanson, former mayor of Seattle, and Harry Wilson, United States secret service agent who posed in Seattle as secretary of the Soldiers' Sailors' and Workmen's soviet council, was admissible.

Attorneys for the defendants had argued for two days to bar the stories of the two witnesses, who will tell the story of the Seattle general strike last year. The state contends the strike was a revolt and had been a law enforcement of the Communist-Labor party's policy of overthrow of the government by force.
